Eazy Wheels \$59
 (\$59 w/RACK, \$34 without)

Hello and welcome to the Aussie b-spoke orderform, we hope that you find it a great way to order your custom Brompton.

Here is what you do:

Tick the boxes for the options you wish. You must choose one option for sections 1, 2 and 3. Then in section 4 choose either a steel frame, which allows to choose either one colour, for both Main frame and extremities, or two separate colours. Or select the Superlight for lightweight options, only one colour is available here. Then select one option for each category in 5. Then in section 6 choose only the accessories that you want. Prices are listed in, or to the right of the box, boxes with no price will not incur an extra charge. Total will be the total of the options you selected on top of the \$1649 base price.

Notes

- ① A pump is standard on all bikes except Superlight bikes, or those without mudguards
- ② For an inside leg over 84cm/33", you should almost certainly fit an extended or tele-scopic seat pillar; the latter is best for an inside leg over 90cm/35", or for taller riders wishing to minimise the height of the folded bike
- ③ Firm suspension may be more suitable for those weighing over 80kg and those who value responsiveness above comfort
- ④ Tyre-driven 'bottle dynamo' lighting can not be used with Schwalbe Stelvio tyres
- ⑤ The front luggage sets come complete with front carrier block and frame to attach the luggage to the Brompton. If two or more bags are chosen in this section (with the exception of the Rear rack bag) you can deduct \$56 from the final price per each extra bag as only one block is needed per bike.
Please note that the S Bag is the only front luggage suitable for an S Type
- ⑥ The Rack Sack can only be configured on a bike with a rear rack

N.B. Please consider the colours employed here as indicative only; colours on screen or paper can not match exactly those found on a metal bike.
